REVIEW AND RESULTS OF OPERATIONS

OPERATING RESULTS FOR THE HALF YEAR

Reported Net Profit After Tax attributable to equity holders of the parent (Reported NPAT) increased 44.5% to \$24m in 1H21 (1H20: \$16.6m). The increased Reported NPAT was due to a mixture of strong underlying organic and acquisition driven growth primarily in the Australian Broking division.

On a Reported NPAT basis, earnings per share was 32.35 cents for the half year, 43.8% above the prior comparable period.

Underlying Net Profit After Tax (Underlying NPAT) is a key measure used by management and the board to assess and review business performance. Underlying NPAT excludes non-controlling interests and the impact of fair value adjustments to the carrying value of associates, profits on sale and deconsolidation of controlled entities, contingent consideration adjustments, amortisation of intangibles, impairment charges and acquisition costs.

Underlying NPAT increased 44.2% to \$30.7m in 1H21 (1H20: \$21.3m) due to the aforementioned mixture of strong underlying organic and acquisition driven growth primarily in the Australian Broking division.

On an Underlying NPAT basis, earnings per share increased by 43.2% to 41.47 cents.

The reconciliation between Reported NPAT and Underlying NPAT is shown in Note 3 of the Financial Statements.

DIRECTORS' REPORT

HALF YEAR ENDED 31 DECEMBER 2020

RESULTS BY OPERATING SEGMENT

Australian Broking – underlying pre-tax profit for the half year increased by 60.1% to \$39.3m (1H20: \$24.6m). This increase driven by both organic and acquisition related growth as follows:

- Organic profit growth was assisted by:
 - Increased Commercial lines insurance premiums averaging 7.4% over the period.
 - Ongoing cost reductions due to network rationalisation.
- Acquisition related profit growth included strong contributions as a result of investments in BizCover (1 February 2020) and Experien (1 August 2020).

New Zealand Broking – underlying pre-tax profit for the half year increased by 5.9% to \$5.2m. Continued flat premium rates were observed. NZbrokers continues to perform well with growth in members and continually enhanced membership proposition including in the technology space.

Australian Agencies – underlying pre-tax profit for the half year decreased by 4.8% to \$5.3m. COVID-19 impacted clients in the Hospitality, Bus and Coach and Film industries during a transitional year. The restructuring of Australian Agencies has commenced, complemented by the investment in 360 Underwriting Solutions in December 2020, which accelerates AUB Group's scale in Agencies.

Health & Rehab - Pre-tax profits increased by \$1.0m or 58.4% to \$2.8m for the half year, primarily due to Altius Group's increased revenue and reduced costs. See further on Altius Group disposal below.

GOVERNMENT ASSISTANCE

Reported NPAT in 1H21 includes an amount of \$1.7m related to JobKeeper receipts by controlled entities (\$0.08m) and non-controlled entities (\$1.63m).

GEARING RATIO

Gearing based on the Consolidated Financial Statements decreased to 34.0% at 31 December 2020 (30 June 2020: 34.2%). AUB Group has undrawn facilities of \$17.8m at 31 December 2020 (30 June 2020: \$58.0m).

DIVIDEND PAYMENTS

The Directors have determined a fully franked interim dividend of 16.0 cents per share totaling \$11.90m which will be payable to shareholders on 8 April 2021 (record date 5 March 2021). The Dividend Reinvestment Plan (DRP) arrangements will remain activated.

SIGNIFICANT EVENTS AFTER BALANCE DATE

On 20 January 2021, AUB Group Limited entered into an arrangement to dispose of its entire interest in Altius Group Pty Ltd (Altius) for cash proceeds of approximately \$57m (this number is net of tax, transaction and other relevant costs and includes AUB Group's entitlement to pre - disposal dividends for profits recognised but not yet distributed up to date of sale). The transaction is expected to be completed by April 2021, and on completion Altius will cease to be a controlled entity of the Group. The sale is expected to result in a post - tax profit on disposal of \$10m after expensing \$5.4m related to the increased value of a put and call option in favour of an existing Altius minority shareholder at 31 December 2020. Neither of these amounts will be reflected in Underlying Net Profit After Tax. As a result of the other shareholder also disposing of their interest in Altius on completion, the remaining related put option liability of the Group related to that parcel of shares will be extinguished on completion through equity.

DIRECTORS' REPORT

HALF YEAR ENDED 31 DECEMBER 2020

ROUNDING

The financial report is presented in Australian dollars (\$) and all values are rounded to the nearest \$1,000 (where rounding is applicable), unless otherwise stated, under the option available to the Company under ASIC instrument *"Rounding in Financial / Directors' Reports"* 2016/191. The Company is an entity to which the legislative instrument applies.

NOTES TO THE FINANCIAL STATEMENTS

HALF YEAR ENDED 31 DECEMBER 2020

1. CORPORATE INFORMATION

The consolidated financial statements are those of AUB Group Limited (the parent 'Company') and all entities that AUB Group Limited controlled (together the 'Group') during the year and at the reporting date.

The interim financial report of AUB Group Limited for the six months ended 31 December 2020 was authorised for issue in accordance with a resolution of the directors on 23 February 2021.

AUB Group Limited is a for profit company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

The principal activities during the year of entities within the consolidated Group were the provision of services across Australia and New Zealand for insurance broking, agency, and distribution of ancillary products within the support services businesses.

The registered office and principal place of business of the Company is Level 14, 141 Walker Street, North Sydney NSW 2060, Australia.

2.1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation of the financial report

The general purpose condensed financial report for the half year ended 31 December 2020 has been prepared in accordance with AASB 134 "Interim Financial Reporting". Compliance with AASB 134 ensures compliance with IAS 34 "Interim Financial Reporting" as issued by the International Accounting Standards Board. The financial report has been prepared on a historical cost basis, except where otherwise stated.

The financial report is presented in Australian dollars (\$) and all values are rounded to the nearest \$1,000 (where rounding is applicable), unless otherwise stated, under the option available to the Company under ASIC instrument "Rounding in Financial / Directors' Reports" 2016/191. The functional currency of the Group and all segments other than New Zealand is Australian Dollars. The New Zealand segment's functional currency is New Zealand dollars.

The financial statements have been prepared on a going concern basis.

There are no changes to significant accounting judgements, estimates and assumptions from those used at 30 June 2020. The accounting policies adopted in the preparation of the financial report are consistent with those of the previous financial year and corresponding interim reporting period except new and amended accounting standards which came into effect on 1 July 2020, which are detailed in Note 2.2.

Certain comparative information has been revised in this financial report to conform with the current period's presentation.

The half year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated group as the full financial report. It should be read in conjunction with the Group's annual consolidated financial statements as at 30 June 2020.

b) Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements and estimates on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Management has identified the following critical accounting policies for which significant judgements, estimates and assumptions are made. Actual results may differ from these estimates under different assumptions and conditions and may materially affect financial results or the financial position reported in future periods.

Further details of the nature of these assumptions and conditions are found in the relevant notes to the financial statements.

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

Impairment of goodwill / intangibles and investments in associates

The Group determines whether goodwill is impaired at least on an annual basis and for any identifiable intangibles and investments in associates that have an indicator of impairment. This requires an estimation of the recoverable amount of the cash-generating units to which the goodwill is allocated. COVID-19 was considered in our assessment of (1) EBIT market multiples, (2) required return on equity in relation to Discounted Cash Flow (DCF) models and (3) future cash flow projections in DCF models. The assumptions used in this estimation of recoverable amount and the carrying amount of goodwill are discussed in Note 13 to the Group's Annual report as at 30 June 2020. At half year the Group performs a review of impairment indicators.

Measurement of contingent considerations

Contingent considerations terms vary between transactions but generally involve using the weighted average expected future profits of the company being acquired to compute the current liability. See Note 7(a) for further details.

NOTES TO THE FINANCIAL STATEMENTS

HALF YEAR ENDED 31 DECEMBER 2020

2.1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Re-estimation of put options financial liability

A financial liability has been recognised representing an estimate of the value the Group could be required to pay on the future exercise by holders of put options. The Group re-estimates the put options financial liability at the reporting date, taking into account the estimated future outcomes for income or profit, on which the purchase price will be determined. Historical trends and any relevant external factors are taken into account in determining the likely outcome. See Note 15 to the Group's Annual report as at 30 June 2020 for further details.

Expected Credit Loss - COVID-19

Whilst the subsidiaries and associates of the Group are diversified across industry sectors and customer segments, there may be some limited cases of customers experiencing short to medium term liquidity issues due to COVID-19 which may increase the risk of non-collectability in particular in relation to policies where customers are not required to maintain insurance under a legislative instrument or those industry sectors and customers segmented significantly impacted by COVID-19. See Note 11 to the Group's Annual report as at 30 June 2020 for further details.

Deferred Tax Assets

Deferred tax assets (DTA) are recognised for deductible temporary differences when management considers that it is probable that future tax profits will be available to utilise those temporary differences. Judgement is required in relation to DTAs recognised in relation to carry forward losses. The future profitability of each entity or tax consolidation group (if a part of a tax consolidation group) needs to be assessed including where a capital loss is made, the probability of a future capital gain to offset the carrying forward capital loss. See Note 5 to the Group's Annual Report as at 30 June 2020 for further details.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies and methods of computation are the same as those adopted in prior years except new and amended accounting standards which came into effect on 1 July 2020, both of which are detailed below.

The 31 December 2020 financial statements, and respective notes to the financial statements have been prepared in accordance with the new and amended accounting standards. The accounting policies in the notes below have also been updated to reflect the new and amended accounting standards in effect during the year.

The Group has applied the following standards and amendments for the first time for the annual reporting period commencing 1 July 2020:

- AASB 2018-6 Amendments to Australian Accounting Standards – Definition of a Business;
- AASB 2014-10 Amendments to Australian Accounting Standards – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture;
- AASB 2020-3 Amendment to AASB 9 – Fees in the '10 per cent' Test for Derecognition of Financial Liabilities (Part of Annual Improvements 2018–2020 Cycle);
- AASB 2020-4 Amendments to AASs – Covid-19-Related Rent Concessions;
- AASB 2019-1 Amendments to AASs – References to the Conceptual Framework; and
- AASB 2019-5 Amendments to AASs – Disclosure of the Effect of New IFRS Standards Not Yet Issued in Australia.

The Group also elected to early adopt the following amendments as at 1 July 2019:

- AASB 2018-7 Amendments to Australian Accounting Standards – Definition of Material.

The amendments listed above did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

2.3 STANDARDS ISSUED BUT NOT YET EFFECTIVE

There are a number of new accounting standards and amendments issued, but not yet effective, none of which have been early adopted by the Group in this Financial Report. The new standards and amendments (noted below), when applied in future periods, are not expected to have a material impact on the financial position of the Group.

- Amendments to IAS 1: Classification of Liabilities as Current or Non-current;
- AASB 2020-3 Amendments to AASB 3 – Reference to the Conceptual Framework; and
- AASB 2020-3 Amendments to AASB 137 – Onerous Contracts —Cost of Fulfilling a Contract.

3. OPERATING SEGMENTS

The Group's corporate structure is organised into four business units which have been identified as separate reportable segments as follows:

- 1. Australian Broking:** assess the insurable risks and risk appetite of customers and sources relevant insurance products from insurers and underwriters which meets the needs of the customer. Post policy binding services primarily include claims handling services on behalf of the customer (claims preparation). Customers are generally comprised of Small and Medium Enterprise (SME) businesses, however services are also provided to large institutions and individuals.
- 2. Australian Agencies:** assess risk profile and pricing of policies requested by brokers on behalf of the insurer. Post policy binding services primarily include claims handling services on behalf of the insurer (claims processing). Customers are generally comprised of brokers operating within the SME insurance industry sector.
- 3. New Zealand:** provides broking and agency services within the New Zealand market. Operations are centrally monitored and managed by AUB Group NZ head office. As a distinct overseas operation and investment, performance of the segment is separately monitored.
- 4. Support Services:** provides a diversified range of services to support the Broking, Agency, and New Zealand segments, and external clients. Services includes post claim rehabilitation, investigation, loss adjusting, legal, and AUB Group head office support. These sub segments are not individually reportable.

Discrete financial information about each of these segments is reported to management on a regular basis and the operating results are monitored separately for the purposes of resource allocation and performance assessment.

As a result of organic growth and acquisitions, the Australian Agencies segment and the New Zealand segment have become separately reportable. Australian Broking, Australian Agencies, and New Zealand was previously reported in a single operating segment known as Insurance Intermediaries.

Due to the continued decline of the Risk Services entities as a proportion of the Group, the segment is no longer individually reportable and has been aggregated within the Support Service segment.

Each segment, except Support Services, contains entities which operate within a uniform regulatory environment, and contains similar characteristics in relation to customer profile and operational risks. Comparatives have been restated accordingly.

Underlying Net Profit Before Tax

Performance of segments are reviewed by Chief Operating Decision Maker ('CODM') on an Underlying Net Profit Before Tax (UNPBT) basis. UNPBT excludes the effects of non-recurring events or other items not representative of the underlying operations items of income and expenditure which do not represent the underlying performance of the Group and segments of the Group, such as restructuring costs, acquisition costs, fair value gain / losses, profits on sale, amortisation of broking registers and impairments. Such items are considered to be a result of non-recurring events or non-representative of the underlying operations of the Group and segments of the Group. UNPBT also excludes non-controlling interests to reflect the performance attributable to the shareholders of the Group.

6. INTEREST BEARING LOANS AND BORROWINGS

Group Borrowing facilities as at 31 December 2020

The facilities are subject to financial undertakings and warranties typical of facilities of this nature and have sub-limits for various purposes including acquisitions.

AUB Group Limited secured a syndicated, multi-currency debt facility comprising Australia and New Zealand Banking Group Limited (ANZ) and Macquarie Bank Limited (Macquarie) for \$250m (30 June 2020: \$250m). This facility includes an advance in NZ\$ totaling NZ\$45m (2020: NZ\$45m). The debt facility expires on 6 December 2022 with mechanism for a one year extension on agreement of both parties.

In addition to the syndicated debt facility provided to AUB Group Limited, controlled entities within the group have also negotiated other facilities with other banks as shown below. Whilst the facilities expire beyond the next 12 months some facilities have provision for mandatory principal repayments during the facility period. These mandatory repayments are shown as current liabilities.

7. BUSINESS COMBINATIONS AND TRANSACTIONS INVOLVING LOSS OF CONTROL

a) Business combinations

A major strategy of the Group is to acquire part ownership in insurance broking, underwriting agency and other insurance intermediary services businesses or portfolios. The terms of these acquisitions vary in line with negotiations with individual vendors but are structured to achieve the Group's benchmarks for return on investment.

The business combinations relate to insurance broking and agency businesses in Australia except Brokerweb Risk Services Limited (BWRS) which is a broker incorporated in New Zealand.

For further information on the Group's policies, please refer to the 2020 Annual Report.

a) i) During the current period, the following transactions occurred:

- Effective 1 August 2020, the Group acquired 73.2% of Experien Insurance Services Pty Limited for \$17.71m (\$12.11m in cash, and \$5.60m in Company shares). The agreement contained put options exercisable after 3 years but before 5 years, and after 5 years. A total put option liability of \$6.8m was recognised in relation to both put options covering all non-controlling interests. This was booked directly against the Put Option Reserve and resulted in \$nil impact on the profit and loss on initial recognition.
- Effective 1 September 2020, a controlled entity of the Group acquired 100% (AUB's effective interest of 84.9%) of Bestmark Pty Ltd (Bestmark) through a share swap with Bestmark's vendors. Refer to Note 9 for further information.
- Effective 26 November 2020, a controlled entity of the Group acquired a further 30% of Fleetsure for \$5.50m increasing its shareholding to 80%. A \$3.85m fair value gain on step up was recognised on obtaining control of the entity.
- Effective 1 December 2020, a controlled entity of the Group acquired 100% (AUB's effective interest of 52.3%) of 360 Investments Pty Ltd and its controlled entities and associates (360) through a share swap with 360's vendors and \$19.52m in cash consideration. As a result of the series of stapled transactions, AUB diluted its interest in SURA Hospitality to 52.3% (FY20: 100%), Fleetsure to 41.8% (pre-acquisition 80%, FY20: 50%), SURA Plant & Equipment to 76.2% (FY20: 100%), and SURA Bus & Coach to 90.5% (FY20: 100%). Further details on the transaction are contained on the following page.

The above acquisitions have been provisionally accounted for as the initial accounting for the business combinations are incomplete at the reporting date. The accounting is expected to be completed within 12 months of the acquisition date.

Business Acquired	Transaction date(s)	HY21 % / \$ '000	FY20 %
Experien Insurance Services Pty Ltd	01-Aug-20	73.2	-
360 Investments Pty Ltd	01-Dec-20	52.3	-

Less contingent / deferred consideration		(270)	
Less shares issues by the Company		(5,604)	
Less shares issued by a subsidiary of the Group		(63,334)	
Less cash acquired		(24,737)	
Payments for acquisition of consolidated entities, net of cash acquired		13,199	
Goodwill arising on acquisition related to the Group		69,701	
Goodwill arising on acquisition relating to non-controlling interests		50,014	
Total Goodwill arising on acquisition		119,715	
Net increase in non-controlling interests		77,068	

* The Group's effective shareholding in the entity is less than 50%, but the Group assessed it still has control, as a subsidiary of the Group has more than 50% interest and rights in the entity.

The total Revenue and Net Profit After Tax recognised during 6 months ended 31 December 2020 in relation to the current period acquisitions were \$7.19m, and \$1.48m respectively. Had the entities been acquired at the beginning of the period ended 31 December 2020, the Revenue and Net Profits would have been \$24.33m and \$2.77m respectively.

Goodwill arising on acquisition relating to non-controlling interests	40,848
Total Goodwill arising on acquisition	80,989

The investment in 360 comprises of 18 businesses within the Australian agencies segment. The acquisition increases the Group's capability and is expected to improve operating efficiencies as a result of the increased economies of scale within the Australian agency group of businesses.

b) Loss of Control

During the period there were no transactions which resulted in the Group losing control of any of its subsidiaries.

8. INVESTMENT IN ASSOCIATES

The Group's investments in its associates are accounted for under the equity method of accounting in the Consolidated Financial Statements. These are entities in which the Group has significant influence, and which are not controlled entities. The Group deems they have significant influence if they have more than 20% of the voting rights.

For further information on the Group's policies, please refer to the 2020 Annual Report.

9. SHARES IN CONTROLLED ENTITIES

New acquisition of controlled entities or transaction which lead to the Group obtaining or losing control in an entity during the current and previous period are disclosed in Note 7. The following transactions involve transactions between owners where there is no change in the control assessment.

During the current period, the following transactions occurred:

- As a result of a series of step-up acquisitions during the period, the Group's interest in Northlake Holding Pty Ltd increased from 65.8% to 90.5% for a total consideration of \$2.93m.
- Effective 28 August 2020 the Group acquired a further 18.5% of interest in Altius Group Pty Ltd (Altius) for \$9.26m in upfront cash and a contingent deferred consideration of \$3.14m. As a result of the transaction, the Group's put option liability in relation to the parcel of shares was extinguished resulting in a partial derecognition of \$7.43m against the respective put option reserve. There was no profit or loss impact as a result of the transaction.
- Effective 1 September 2020, CityCover (Aust) Pty Ltd (CityCover) acquired all shares in Bestmark Insurance Pty Ltd via issuance of new shares in CityCover (\$2.85m), diluting the Group's interest in CityCover from 95% to 73.5%. In the same arrangement, the Company's shares in Comsure Insurance Brokers Pty Ltd was swapped for additional shares in CityCover (\$19.47m), increasing the Group's interest in CityCover from 73.5% to 83.8%.

11. SHARE-BASED PAYMENT PLANS

The Group provides benefits to employees (including Executive Directors) of the Group in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares ('equity-settled transactions').

For further information on the Group's policies, please refer to the 2020 Annual Report.

Employee Share Option Plan

Share options are granted to senior executives by the ultimate parent company, AUB Group Limited.

The share-based payments expense recognised in the Consolidated Statement of Profit or Loss is included in Note 4(iv) Expenses.

The number of options outstanding is represented by:

Options outstanding at the end of the period				528,229	402,541

* Valuation is based on the weighted average price of shares on the date the options were issued.

All options must be exercised by no later than 7 years from the issue date.

During the period the following options were granted, exercised or lapsed

- 78,795 performance options were granted to the CEO on 18 December 2020. All performance options were issued at an exercise price of \$NIL and are exercisable after 31 August 2025, if performance hurdles are met.

46,893 performance options were granted to other employees on 18 December 2020. All performance options were issued at an exercise price of \$NIL and are exercisable after 31 August 2025, if performance hurdles are met.

The volume weighted average share price for the 5 business days prior to the date the options were issued was \$17.09. The options were valued using an average price of \$10.82 for EPS options and \$11.94 for TSR options (weighted average price of \$11.27). See below for terms and exercise conditions for options issued during the period ended 31 December 2020.

Vesting conditions for Performance options issued in the current period are as follows:

Performance Options

- Each Performance Option is a right to receive one fully-paid ordinary share in the Company or at the Board's discretion, an equivalent cash payment.
- The Performance Options will only vest to the extent that the performance hurdles and ongoing employment conditions (set out below) are satisfied over the relevant performance periods.

Each grant of Performance Options has been divided into two components, which will each be subject to a separate performance hurdle. The Board considers that this structure has the benefit of both a relative test that reflects the Company's performance against the market and an objective test reflective of management's performance in growing earnings per share.

- 60% of the Performance Options will be subject to a hurdle based on the average annual growth rate (AAGR) of the adjusted earnings per share (EPS) hurdles (EPS Options); and
- 40% of the Performance Options will be subject to a hurdle based on the relative total shareholder return (TSR) of the Company compared to the TSR of the constituents of the S&P/ASX Small Ordinaries Industrials Index (AXSID) (TSR Options).

11. SHARE-BASED PAYMENT PLANS (continued)

Performance Options (continued)

- Performance Options will only vest if participants remain in ongoing employment over the relevant performance period (subject to the cessation of employment provisions).
- Performance Period for all options issued in FY21 will commence on 1 July 2020.
- Performance Period - 3 year options.
- The performance hurdles for 125,688 Performance Options granted will be tested over a 3 year performance period. Any Performance Options that do not vest at the end of the 3 year performance period, will lapse.

EPS Options

- For the purposes of calculating the AAGR, an underlying form of earnings per share will be utilised (Underlying EPS) being, in respect of any financial year, the consolidated net profit after tax of the Company for that year excluding fair value adjustments to the carrying values of associates, profit on sale of entities and assets or deconsolidation of controlled entities, contingent consideration adjustments, impairment charges and amortisation of intangibles (Underlying NPAT) divided by the weighted average number of shares on issue during the financial year. Other adjustments to the Underlying NPAT calculation may be made in limited circumstances where the Board considers it to be appropriate.

The percentage of the EPS Options that satisfy the EPS performance hurdle will be determined by reference to the AAGR (expressed as a percentage) of Underlying EPS from the year ending 30 June 2020 (being, 72.5 cents) to:

- The Underlying EPS for the performance options granted in FY21 will be based on the outcome for the year ending 30 June 2023.
Subject to satisfaction of the AAGR performance hurdles, the number of EPS Options that will vest after grant date; is as follows:
 - Equal to but not less than 5.0% AAGR, 50% of the Options will become exercisable.
 - Between 5% and 10% AAGR, the percentage of performance Options that are exercisable will be determined on a pro rata basis so that the number of Options that are exercisable will increase from 50% by 1.0 percentage point for every 0.1% additional growth over 5%.
 - Equal to or greater than 10% AAGR, 100% of the Performance Options will become exercisable.

TSR options

- Hurdles remained unchanged from the previous period.

12. SUBSEQUENT EVENTS

On 20 January 2021, AUB Group Limited entered into an arrangement to dispose of all its interest in Altius Group Pty Ltd (Altius) for cash proceeds of approximately \$57m (this number is net of tax, transaction and other relevant costs and includes AUB Group's entitlement to pre - disposal dividends for profits recognised up to the date of sale). The sale is expected to result in a post - tax profit on disposal of \$10m after expensing \$5.4m related to the increased value of a put and call option in favour of an existing Altius minority shareholder at 31 December 2020.

The transaction is expected to be completed by April 2021, and on completion Altius will cease to be a controlled entity of the Group. As a result of the other shareholder also disposing of their interest in Altius on completion, the related put option liability held by the Group in relation to those parcel of shares will be extinguished on that date through equity.

On 23 February 2021, the Directors of AUB Group Limited determined an interim dividend on ordinary shares in respect of the 2021 financial year. The total amount of the dividend is \$11,900,672 which represents a fully franked dividend of 16.0 cents per share. The dividend has not been provided for in the 31 December 2020 financial statements.

DIRECTORS DECLARATION

HALF YEAR ENDED 31 DECEMBER 2020

In accordance with a resolution of the directors of AUB Group Limited, we state that:

In the option of the directors:

- (a) The financial statements and notes of the consolidated entity are in accordance with the *Corporations Act 2001*, including:
 - i. giving a true and fair view of the consolidated entity's financial position as at 31 December 2020 and of its performance for the 6 month period ended on that date;
 - ii. complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*;
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Independent Auditor's Review Report to the Members of AUB Group Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of AUB Group Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the consolidated financial position of the Group as at 31 December 2020 and of its consolidated financial performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, anything has come to our attention that causes us to believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's consolidated financial position as at 31 December 2020 and its consolidated financial performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
