REVIEW AND RESULTS OF OPERATIONS

OPERATING RESULTS FOR THE HALF YEAR

Reported Net Profit After Tax attributable to equity holders of the parent (Reported NPAT) was \$0.36m for the 6 months to 31 December 2022 (1H22: \$29.68m). Reported NPAT was impacted by acquisition related expenses mainly as a result of the acquisition of Tysers in September 2022. Tysers is a leading London based Lloyd's broker with access to specialist underwriting expertise and global distribution capabilities.

On a Reported NPAT basis, earnings per share was 0.38 cents for the half year (1H22: 39.89 cents).

Underlying Net Profit After Tax (Underlying NPAT) is a key measure used by management and the board to assess and review business performance. Underlying NPAT excludes non-controlling interests and the impact of fair value adjustments to the carrying value of associates, profits on sale and deconsolidation of controlled entities, contingent consideration adjustments, amortisation of intangibles, impairment charges and acquisition costs.

Underlying NPAT was \$46.7m (1H22: \$30.6m). The increased Underlying NPAT was due to a mixture of strong organic and acquisition growth as mentioned above.

On an Underlying basis, earnings per share was 48.18 cents per share (1H22: 40.30 cents).

Please refer to Note 3 of the financial statements for the reconciliation from Reported NPAT to Underlying NPAT.

RESULTS BY OPERATING SEGMENT

Tysers

- Tysers was included in the 1H23 result from 1 October 2022.
- Underlying pre-tax profit contributed by Tysers for the 3 months to 31 December 2022 was \$17.97m. Tysers performed above expectations, with revenue growth for the 3 months to 31 December 2022 up 12% vs forecast (Organic: 10%, FX: 2%).

Australian Broking

- Underlying pre-tax profit for the period increased by 30.25% to \$49.90m (1H22: \$38.31m). EBIT Margin of 35.2% up 410bps from 1H22. These increases were driven by organic and bolt-on acquisition growth.

New Zealand

- Underlying pre-tax profit for the year increased by 34.62% to \$4.78m (1H22: \$3.55m).
- Technology investment costs of \$3.37m were incurred in the current period (1H22: \$2.17m).

DIRECTORS' REPORT

HALF YEAR ENDED 31 DECEMBER 2022

RESULTS BY OPERATING SEGMENT (CONTINUED)

Agencies

- Underlying pre-tax profit for the period increased by 37.99% to \$12.29m (1H22: \$8.91m).
- Strong organic growth partially offset by non-recurrence of some profit commissions.
- Acquisition related profit growth included Strata Unit Underwriting Agency (1 September 2022).
- EBIT margin of 31.6%. Excluding profit commissions in both periods, the EBIT margin expanded 400bps from 1H22.

Bizcover

- Underlying pre-tax profit for the year increased by 15.24% to \$5.67m (1H22: \$4.92m). This increase was due to organic profit growth assisted by operating leverage and scalability of the platform.
- EBIT Margin of 38.4% up 140bps from 1H22.

CAPITAL MANAGEMENT

AUB drew down on its new debt arrangements on 30 September 2022 in order to settle the acquisition of Tysers. The leverage ratio was 2.74 at 31 December 2022. AUB Group had cash and undrawn debt facilities of \$50.3m at 31 December 2022.

DIVIDEND PAYMENTS

The Directors have determined a fully franked interim dividend of 17 cents per share totaling \$17.2m which will be paid to shareholders on 4 April 2023 (record date 2 March 2023). The Dividend Reinvestment Plan (DRP) remains suspended and will not apply to interim dividend.

SIGNIFICANT EVENTS AFTER BALANCE DATE

Effective 1 January 2023, the Group acquired a further 25% of AEI Insurance Group Pty Ltd (AEI) and increased its holding to 65%. On this date the Group gained control of AEI.

ROUNDING

The financial report is presented in Australian dollars (\$) and all values are rounded to the nearest \$1,000 (where rounding is applicable), unless otherwise stated, under the option available to the Company under ASIC instrument "Rounding in Financial / Directors' Reports" 2016/191. The Company is an entity to which the legislative instrument applies.

NOTES TO THE FINANCIAL STATEMENTS

HALF YEAR ENDED 31 DECEMBER 2022

1. CORPORATE INFORMATION

The consolidated financial statements are those of AUB Group Limited (the parent 'Company') and all entities that AUB Group Limited controlled (together the 'Group') during the half year and at the reporting date.

The interim financial report of AUB Group Limited for the six months ended 31 December 2022 was authorised for issue in accordance with a resolution of the directors on 23 February 2023.

AUB Group Limited is a for profit company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

The principal activities of entities within the consolidated Group for the half year were the provision of services globally for insurance broking, agencies, and distribution of ancillary products within the support services businesses.

The registered office and principal place of business of the Company is Level 14, 141 Walker Street, North Sydney NSW 2060, Australia.

2.1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation of the financial report

The general purpose condensed financial report for the half year ended 31 December 2022 has been prepared in accordance with AASB 134 "Interim Financial Reporting". Compliance with AASB 134 ensures compliance with IAS 34 "Interim Financial Reporting" as issued by the International Accounting Standards Board. The financial report has been prepared on a historical cost basis, except where otherwise stated.

The financial report is presented in Australian dollars (\$) and all values are rounded to the nearest \$1,000 (where rounding is applicable), unless otherwise stated, under the option available to the Company under ASIC instrument "Rounding in Financial / Directors' Reports" 2016/191. The functional currency of the Group and all segments other than New Zealand Broking and Tysers is Australian Dollars. The New Zealand Broking segment's functional currency is New Zealand dollars. The Tysers segment's functional currency is Great British Pounds.

The financial statements have been prepared on a going concern basis.

There are no changes to significant accounting judgements, estimates and assumptions from those used at 30 June 2022, except for those related to Tysers as outlined in Note 7. The accounting policies adopted in the preparation of the financial report are consistent with those of the previous financial year and the corresponding interim reporting period.

Certain comparative information has been revised in this financial report to conform with the current period's presentation.

The half year financial report does not include all notes of the

type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated Group as the full financial report. It should be read in conjunction with the Group's Annual Consolidated Financial Statements as at 30 June 2022

Fair value

The carrying value of most of the Group's financial assets and financial liabilities approximate their fair value due to their short term nature. There were no material differences between the book value and the fair value of the Group's financial assets and liabilities.

Please refer to the Group's Annual Consolidated Financial Statements as at 30 June 2022 for further information on the Group's measurement of fair value of recognised assets and liabilities, and their classification in the fair value hierarchy.

b) Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements and estimates on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Management has identified the following critical accounting policies for which significant judgements, estimates and assumptions are made. Actual results may differ from these estimates under different assumptions and conditions and may materially affect financial results or the financial position reported in future periods.

Further details of the nature of these assumptions and conditions are found in the relevant notes to the financial statements.

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

Impairment of goodwill / intangibles and investments in associates

The Group determines whether goodwill is impaired at least on an annual basis and for any identifiable intangibles and investments in associates that have an indicator of impairment. This requires an estimation of the recoverable amount of the cash-generating units to which the goodwill is allocated. COVID-19 was considered in our assessment of (1) EBIT market multiples, (2) required return on equity in relation to discounted cash flow (DCF) models and (3) future cash flow projections in DCF models. The assumptions used in this estimation of recoverable amount and the carrying amount of goodwill are discussed in Note 13 to the Group's Annual report as at 30 June 2022. At half year the Group performs a review of impairment indicators.

2.1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Measurement of contingent considerations

The Group recognises contingent consideration at fair value through profit or loss. The terms of contingent considerations vary between transactions but generally involves either (1) an EBIT or revenue (fixed) performance hurdle (generally 2-3 years) post the acquisition date (i.e. high water mark) or (2) future dated (generally 2-3 years) EBIT or revenue times a fixed multiple less historic payments made. See Note 7 for further details on current year transactions.

Re-estimation of put options financial liability

A financial liability has been recognised representing an estimate of the value the Group could be required to pay on the future exercise by holders of put options over non-controlling interests. The Group re-estimates the put options financial liability at the reporting date, taking into account the estimated future outcomes for income or profit, on which the purchase price will be determined. Generally this involves projecting the EBIT of the entity to the first exercise date multiplied by the expected EBIT multiple and projected net debt (based on known information and the company's gearing targets). Historical trends and any relevant external factors are taken into account in determining the likely outcome.

Deferred tax assets

Deferred tax assets (DTA) are recognised for deductible temporary differences when management considers that it is probable that future taxable profits will be available to utilise those temporary differences. Judgement is required in relation to DTAs recognised in relation to carry forward losses. The future profitability of each entity or tax consolidation group (if a part of a tax consolidation group) needs to be assessed including where a capital loss is made, the probability of a future capital gain to offset the carry forward capital loss. See Note 5 to the Group's Annual Report as at 30 June 2022 for further details.

Pensions

Tysers operates two defined benefit pension schemes, which require contributions to be made to separately administered funds. The cost of the defined benefit pension scheme and the present value of the pension obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in a valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Remeasurements, comprising actuarial gains and losses, the effect of any asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the statement of financial position with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Climate change

Climate change is a material risk to the global economy including the insurance sector. As a result of an increased frequency and severity of climate related events, the availability and cost of insurance coverage for some of our customers may be materially impacted.

Our decentralised operating approach and diversified investment strategy helps manage concentration risk to locations, industries, and products. As a result we are not materially exposed to industries expected to be significantly impacted by climate change. There are opportunities for the Group to facilitate alternative insurance cover for customers impacted by climate change. There are also opportunities for the Group within new and emerging markets such as renewable energy.

Hedge Accounting

The Group uses derivative financial instruments, such as forward currency contracts to hedge its exposure to foreign currency risk in forecast transactions and firm commitments. At the inception of a hedge relationship, AUB Group formally designates and documents the hedge relationship to which it wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. The effective portion of the gain or loss on the hedging instrument is recognised in other comprehensive income in the cash flow hedge reserve, while any ineffective portion is recognised immediately in profit or loss.

Capital Risk Management

AUB Group's risk management policy is to identify, assess, and manage risks, which are likely to adversely impact on its financial performance, continued growth and its survival. In terms of financial risk management, the Group takes a risk-averse approach, and seeks to minimise risk, whilst bearing in mind cost effectiveness. AUB will not engage in speculative activity, nor will it explicitly seek opportunities to profit from expected movements in the financial markets. The Group hedges cash flows where there is a mis-match in receipts compared to the functional expense base of an entity. As at 31 December 2022, AUB Group's hedge program includes foreign currency hedges, to mitigate the risk of variability of operating cash flows in caused by foreign currency fluctuations. The current hedges are designed to ensure that USD revenue exposures are hedged to GBP, the Tysers operating currency. Where possible the Group takes advantage of natural hedges offsetting foreign currency assets and liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies and methods of computation are the same as those adopted at 30 June 2022. The 31 December 2022 financial statements, and respective notes to the financial statements have been prepared in accordance with the new and amended accounting standards.

The Group has applied the following standards and amendments for the first time for the annual reporting period commencing 1 July 2022:

- AASB 2020-3 Amendments to Australian Accounting Standards – Annual Improvements 2018-2020 and Other Amendments

- AASB 2021-7 Amendments to Australian Accounting Standards – Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections

The amendments listed above did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

3. OPERATING SEGMENTS

The Group's corporate structure is organised into five business units which have been identified as separate reportable segments as follows:

1. **Australian Broking:** assesses the insurable risks and risk appetite of customers and sources relevant insurance products from insurers and underwriters to meet the needs of the customer. Post policy-binding services primarily include claims handling on behalf of the customer (claims preparation). Customers generally comprise Small and Medium Enterprise (SME) businesses, however services are also provided to larger institutions and to individuals.
2. **Agencies:** assesses, on behalf of the insurer, the risk profile of the end customer and pricing of policies requested by brokers. Post policy-binding services primarily include claims handling on behalf of the insurer (claims processing). Business is largely generated by brokers operating within the SME insurance sector. Agencies do not incur or hold policy liabilities.
3. **New Zealand Broking:** provides broking services within the New Zealand market. Operations are centrally monitored and managed by AUB Group NZ Limited. As a distinct overseas operation and investment, performance of the segment is separately monitored.
4. **Support Services:** provides a diversified range of services to support the Broking, Agency, and New Zealand segments, and external clients. Services include post claim rehabilitation, investigation, loss adjusting, legal, white labelling, Group captive insurance and AUB Group head office support. These sub segments are not individually reportable.
5. **Tysers:** includes Wholesale and Retail broking and Managing General Agents (MGA) and is headquartered in London. This is a separately reportable segment given Tysers is largely UK based operating mainly in markets outside Australia. Tysers operates across:
 - Wholesale broking: wholesale broker to the Lloyd's marketplace with global distribution largely through retail brokers.
 - Retail broking: provides retail broking services within the UK market.
 - Managing General Agents: operates insurer delegated authorities, both in-house and through third parties.

Discrete financial information about each of these segments is reported to management on a regular basis and the operating results are monitored separately for the purposes of resource allocation and performance assessment.

Each segment, except Support Services, contains entities which operate within a uniform regulatory environment, and contains similar characteristics in relation to customer profile and operational risks.

Underlying Net Profit Before Tax

Performance of segments is reviewed by the Chief Operating Decision Maker ('CODM') on an Underlying net profit before tax (UNPBT) basis. UNPBT excludes the effects of non-recurring events or other items not representative of the underlying operations of the Group. Items of income and expenditure which do not represent the underlying performance of the Group and segments include restructuring costs, acquisition costs, fair value gains / losses, profits / losses on sale, amortisation of broking registers and impairments. Such items are considered to be a result of non-recurring events or non-representative of the underlying operations of the Group and its segments. UNPBT also excludes non-controlling interests to reflect the performance attributable to the shareholders of the Group.

6. INTEREST BEARING LOANS AND BORROWINGS

Group Borrowing facilities as at 31 December 2022

AUB Group entered into a Syndicated Debt Facility totaling \$675m to fund the completion of the Tysers acquisition. The facility has a maturity date of 30th September 2027. The total facility consists of:

- Tranche A: AUD term facility of \$525m (amortising \$1.5m per quarter).
- Tranche B: multi-currency facility of \$150m.

At 31 December 2022 the total outstanding facility balance is \$640.9m. AUB Group Limited's borrowing facilities are subject to financial undertakings and warranties typical of facilities of this nature and have sub-limits for various purposes including acquisitions.

A small number of controlled entities within the Group in Australia and New Zealand have negotiated facilities with other banks. During the current and prior periods, there were no defaults or breaches of terms and conditions of any of these facilities.

Group leverage ratio

The Group monitors capital using the leverage ratio. Leverage is calculated as Net Debt divided by Earnings Before Interest, Tax, Depreciation and Amortisation (EBITDA).

- Net Debt contains the Group's interest-bearing loans and borrowings, plus other debt (including guarantees) plus the Group's contingent consideration plus the Group's share of borrowings and contingent consideration in relation to associates less Uncommitted Cash and Cash Equivalents.

Contingent consideration excludes contingent consideration recognised by wholly owned Group entities.

Uncommitted cash and cash equivalents excludes trust accounts, and restricted cash such as to meet regulatory obligations.

- EBITDA is calculated on a forward looking basis. EBITDA includes the Group's share of associate EBITDA plus an annualised EBITDA of entities acquired during the period plus any pro forma cost synergies achieved during the period in relation to entities acquired less contribution of EBITDA for any entities disposed during the period.

7. BUSINESS COMBINATIONS AND TRANSACTIONS INVOLVING LOSS OF CONTROL

Business combinations

A major strategy of the Group is to acquire equity in insurance broking, underwriting agency and other insurance intermediary services businesses or portfolios. The terms of these acquisitions vary in line with negotiations with individual vendors but are structured to achieve the Group's benchmarks for return on investment.

The business combinations in the current period relate to insurance broking and agency businesses in Australia and New Zealand, and the purchase of Tysers which is incorporated in the UK.

For further information on the Group's policies, please refer to the 2022 Annual Report.

a) During the current period, the following transactions occurred:

- Effective 8 September 2022, AUB Group acquired 100% of Strata Unit Underwriting Agency Pty Ltd.
- Effective 30 September 2022, the Group acquired 100% of Integro Insurance Brokers Holdings Limited and entities it controls (collectively "Tysers") for GBP 520m comprising GBP 320m in cash, GBP 100m in AUB shares, and GBP 100m in contingent consideration. The contingent consideration is subject to Tysers meeting revenue growth hurdles within 24 months of completion. The fair value of the contingent consideration at acquisition date is based on the probability weighted outcome discounted over 24 months at 9.88%.

Tysers is a leading Lloyd's and London based broker with access to specialist underwriting expertise and global distribution capabilities. Tysers operates primarily out of the UK but has operations in more than a dozen countries, and services clients in more than 100 countries.

Tysers is a material acquisition for the Group. The acquisition will enable the Group to enhance client service, by increasing capacity for harder to place risks for our clients and generate synergies through economies of scale, cost rationalisation and direction of wholesale placement from our Agencies to Tysers. The acquisition will also provide Brokers and Agencies across the Group to access capabilities and facilities in the Lloyd's and International markets. Additional synergies are expected from increased capacity and new product offerings.

Total transaction costs for the Tysers acquisition were \$35m of which \$19m was expensed in the prior year

Regulatory investigation

Tysers Insurance Brokers Limited ("TIBL"), a subsidiary of the Group received notification in 2020 (prior to AUB's acquisition of TIBL) from law enforcement agencies in the UK and the US that it is the subject of investigations into suspicions of bribery and corruption in relation to historic conduct between 2013 and 2017, in respect of one particular client based in a specific territory, by Integro Insurance Brokers Limited (the former trading and registered name of TIBL), its employees, agents and associated persons, and also into related suspicions of money laundering. TIBL is cooperating with all ongoing investigations related to this matter and no charges have been brought against it in either the UK or the US. The potential outcome and total costs associated with the regulatory investigation remain uncertain.

- Effective 1 December 2022, Broker Web Risk Services Limited (BWRS) acquired 100% of shares in Prism Group Limited (Prism). Prism owns 100% of the shares ICIB Limited, which provides broking and risk management services to individuals and business in New Zealand. As part of the transaction, Prism acquired 25.76% of shares in BWRS, resulting in AUB diluting its ownership in BWRS from 100% to 74.24%.

The above acquisitions have been provisionally accounted for as the initial accounting for the business combinations are incomplete at the reporting date. The accounting will be completed within 12 months of the acquisition date.

The total Revenue and Net Profit After Tax recognised during 6 months ended 31 December 2022 in relation to the current period acquisitions were \$118.1m, and \$5.2m respectively. Group revenue would have been \$212.9m had all of the above transactions closed on 1 July 2022. The profit contribution to the Group had all the above transactions closed on 1 July is impractical to measure given significant change in operational and financing aspects of the acquirees prior to acquisition.

Total Goodwill arising on acquisition	542,198

*Includes restricted cash of \$5.6m held for regulatory capital purposes. The cash is not freely available and can only be utilised by Tysers in an acute liquidity event.

**Includes \$23m transferred from Hedge reserve, being the effective portion of the cash flow hedge that had accumulated in the Hedge reserve. The cash flow hedge had been entered into to hedge foreign currency risk on the business combination, which qualified as a highly probable forecast transaction. The movement in the current period in the cash flow hedge reserve was \$22m (balance at 1 July 2022: \$1m).

Loss of Control

During the period there were no significant transactions which resulted in the Group losing control of any of its subsidiaries.

8. INVESTMENT IN ASSOCIATES

The Group's investments in its associates are accounted for under the equity method of accounting in the Consolidated Financial Statements. Associates are entities in which the Group has significant influence, and which are not controlled entities. The Group deems that it has significant influence if it has more than 20% of the voting rights.

For further information on the Group's policies, please refer to the 30 June 2022 Annual Report.

There were no significant transactions related to associates during the period.

Other information in respect of associated entities which carry on business directly or through controlled entities:

- The principal activity of each associate is insurance broking or agency business and The Procure Group Pty Ltd offers investigation, and loss adjusting services.
- There have been no significant subsequent events affecting the associates' profits for the period.

9. SHARES IN CONTROLLED ENTITIES

New acquisitions of controlled entities or transactions which lead to the Group obtaining or losing control in an entity during the current and previous period are disclosed in Note 7. The following transactions involve transactions between owners where there is no change in the control assessment.

During the current period, the following transactions occurred:

Independent Auditor's Review Report to the Members of AUB Group Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half year financial report of AUB Group Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 31 December 2022, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the halfyear ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half year financial report of the Group does not comply with the Corporations Act 2001, including:

- a) Giving a true and fair view of the consolidated financial position of the Group as at 31 December 2022 and of its consolidated financial performance for the half year ended on that date; and
- b) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibilities for the half year financial report

The directors of the Company are responsible for the preparation of the halfyear financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the halfyear financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the halfyear financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the halfyear ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
